Facebook: Coastal Fertility Medical Center

It is the mission of Coastal Fertility Medical Center (CFMC) to provide the highest quality reproductive services available, with maximum attention paid to compassionate patient care. Coastal Fertility Medical Center has been Orange County's leading provider of reproductive care to infertility patients in Orange County since 1982. CFMC and its dedicated staff are widely recognized for their compassion, as well as their special attention to the individual needs of their patients.

Dr. Lawrence B. Werlin is a nationally noted specialist in Reproductive Endocrinology & Infertility (REI) and has been in practice for 30 years. Dr. Werlin pioneered the use of Preimplantation Genetic Diagnosis (PGS/PGD) in Southern California, and is considered a nationally noted expert in its application. He is the founder and Medical Director of Coastal Fertility Medical Center and was also Founder & Director of the Hoag Memorial Hospital Fertility Services. He serves as professor in the division of REI at UCI'S Department of Obstetrics and Gynecology.

CFMC is one of the first to host free in-house seminars for the general public. Every month, Dr. Werlin and his staff at CFMC gather to welcome prospective patients seeking information on the fertility options available to them.

CFMC combines convenience, compassion and technology with its brand new, on-site state-of-the-art laboratory and surgery center, along with a Patient Advocate program which provides unique one-on-one support to help patients through their journey. Visit our website for information and photos of our new facility!
